

Judy Louise Bunker

May 19, 1940 ~ August 9, 2020

To the Bunker family- I send my love and thoughts of happy memories that I have of Judy! She was my YW leader at a very critical time of life. I always knew that she loved me very much for who I was- exactly the way I was and not by any predetermined standard. I remember the constant light of happiness in her eyes. I also remember her solid testimony of the Savior Jesus Christ and the restored gospel. Her testimony that she shared during many lessons, sank deep within me because I knew that she shared it out of love and conviction. I love her very much and have thought of these memories all throughout my life. May you feel the same peace and hope at this time of loss, that she so compassionately shared with me as a young girl. Love to all of your family Liane E Bell

- Liane Ellertson Bell

To the Bunker Family, I grew to love Judy while working with her at Salt Lake Community College. She willingly proofread many of my curriculum assignments when I asked for her help. I knew if she went through a chapter, it would be absolutely correct! I loved her kindness and willingness to always help. When I was department coordinator, we went through many departmental changes. She stayed at the office with me--sometimes until late at night to help me. I also very much appreciated her fun sense of humor. She could tell such fun stories! I will miss her. She brought much light and joy into the world! She loved her sweet husband and children with all her heart. My thoughts and prayers go out to you and your family. Dee Ann Davis Jensen
