
Agapito Gonzales Bernal Sr. (GAPI)

May 14, 1949 ~ January 7, 2025

I have lived in Somerset for 30 years, and during that timer Gapi has been a hard working friendly face to brighten my day. After my husband died, Gapi often knocked on my door to ask if I needed any help. He made sure the show on my sidewalk was shoveled, and always watched out for me. God bless you, Gapi

So many memories and great experiences with him as in our neighborhood he kept everything going with gardens and trees and problems that would occur in our HOA. Our children grew up with him and we loved him Deer dearly so sad for his loss.
