Thank you for sharing the story of Christa's life. It was beautiful to read and a reminder of all the love you poured into her throughout her life. My heart will be with you all as you celebrate Crista and all she was to the world.

Oh, but for her beautiful smile and bright laugh, she will be missed so much. She made me feel beautiful and wise and loved. I will miss her so very much. Sending so much love to Travis, Avery and Ethan! I know the best of her will live on in each of you. God Bless you all. -Tonya

Christa, I love your smile, your need to care for others, and our instant friendship and similarities we shared. I will miss my random text messages of “love you friend” and “I miss your face”.■ Go play with the puppies in heaven and dance in the pretty flowers. Know that I will miss you forever, but I know you are now relieved of pain and watching over those you love. Your forever friend, Angela
