It is, for me, hard to think of Bea as anything but very much alive, bright, quick, funny, astute, -- always caring and – within all that – unfailingly competent in all she did. We worked together for several years at Banury Center, Cold Spring Harbor Lab. Bea was truly the heart of the operation. With all of the world's greatest scientists coming through, and all of the ancillary staff to keep it all going – Bea never let things slide or let pressure in any way diminish that wonderful easygoing style. One fond memory I have is a cold day on the Banbury lawn trying to figure out how to get a boomerang to come back to Philip, who was probably around 10 at the time! My wife, Elly, and I remember Bea so very vividly and fondly and will always continue to do so.

Irving, I am so sorry for your loss. My condolences to you, Phillip and AJ. I am so grateful that I had the opportunity to know Bea. She was a beautiful soul. I will cherish memories of my travels with her alone as well as with both of you. Bea was the best travel partner. Wishing you and family peace and love always.

Dear Philip and AJ, I am so saddened to read of your mom’s passing. I send my condolences. As life moved on, I lost contact with your mom and dad. The many wonderful memories and photographs will have a happy place in my heart.
