I have Preston memories with Becky spending a week in the country with us, contrasting her Salt Lake City life to our farm exploring and haystack climbing. My sister Lynne and I, in turn, played with her and Nan for a week riding bikes on busy city streets and cooking with Aunt Rosie. She was always kind and always interesting to talk with. We wish happy loving memories for all her family members. ■

I ran into Becky at the Marriott Library several years ago and she took me on a tour of her book making "studio." She was so proud to show me her latest project and Becky was happy in this element. Becky brought a lot of wonderment to us.

A terrific obit deserving of a very terrific person. Rest in peace, Becky.
