My condolences go to my good friend Dixon and his siblings at the passing of their mother. Feeling your loss and sharing your sadness. Your mom was a great person and you all will carry her in your hearts forever. It is a privilege and a pleasure to know each of you. God Bless you.

I shall miss you, DeEtte. I'm sad that you are gone and with it the tradition of seeing you at least once a year in December, but gratified knowing that you lived a long and abundant life on earth and that now you are at a better place. I'm grateful that you could have your children by your side at the end. You are loved. Thank you, DeEtte, for raising such strong and moral children. That is your greatest legacy. The world is a better place because you have been in it.
