That was a nice obituary. It's been a while, but I remember him as being very kind. Sorry for your loss

I lost my older brother and best friend growing up. We were lucky to grow up in a wonderful place. Sugar City allowed us to walk to our fishing holes, have swimming fun, go to school, have many friends, and grow up working hard. We picked spuds, hauled hay, shocked grain, thinned beets, cleaned chicken coups and anything else we could earn money to spend. We both shot our elk on a special elk hunt. We played basketball, football, and baseball along the way. Stayed close until his passing. I will miss him. I will see him again when I join him.
