

Gretchen Reising Cornell

December 3, 1946 ~ February 13, 2025

The same beautiful, fun-loving, spirited smile she wore in high school years ago. You have lost an amazing mother/ grandma. My sympathy to her family.

- Jan Bair

I have taught with Gretchen at Truman State University (formerly Northeast Missouri State University) Nursing Department. We had offices near each other most of our teaching career there! She was a mentor when I moved to Kirksville and began my teaching career! David was just a baby, and Gretchen had a crib in her office in the basement of Science Hall! I am currently living in the Cornell house where the whole family lived. I treasure my memories of Gretchen and the time we shared teaching in the Nursing Program. Please contact me when you have the Memorial in Kirksville. I still use my Truman email!
