- Kimberly Clements

I have been honored to share the same middle name with my great Grandma, or as I called her, “Grandma Great”. Although I was only 9 when she passed, I still remember our times going up to Utah to see her, it was always so much fun, and she’d always make sure to say how much she loved us, and cook/bake delicious treats for us, although I’m sad I didn’t get to know her better, im glad I got to make those special memories with her that will last a lifetime. -Ella Rae, one of her many, Great-grandchildren.
