Your mother was a beautiful lady! I remember many occasions interacting with her and she always seemed to radiate a vivacious and happy disposition. Her spunk and cheerfulness, her interest in another's life, made being around her a delight. I am confident she leaves a legacy of such character amongst her children and you honor her with the kindness I feel when in your presence. I hope your family gathering brings a strength and peace such a time deserves. Hugs to each of you.
