I was introduced to your Mom a long time ago. I loved her right away because she was the Mother of one of my new favorite friends, Michelle. I recently became acquainted with Jennifer who is amazing as well. My heart goes out to you on your Mom's passing. May you and your families be blessed with love and comfort knowing your Mom isn't suffering any more. She's got to be so proud of her daughters and her family. With Love, KC

Even though we weren't always the best of friends, I'm going to miss you,

I met Becky about 20 years ago thru Public Storage. I had not only the pleasure of working with her but getting to know her personally and before long we were family. We shared laughter, shed tears and swapped recipes, yes Becky, I will continue to make your famous enchiladas. And I thank you for bringing into the world your beautiful daughter Jennifer, one of my dearest friends in the world. My heart is with you Jen, Barbara, Hank and the rest of Becky's family. Rest in peace Becky you will be missed.

My heart hurts for Becky's family. Losing a loved one is the worst. I have amazing memories from my childhood with Aunt Becky. I hope she rests in paradise and knows how loved she is. Love you aunt Becky. ❤■

Our hearts go out Becky’s family and her children. She was always so kind to us anytime we got together, and she loved spending time with all her extended family over at Grandmothers house. Nich said he will always remember the cakes that Becky would make for family events! :)
