I am sending my condolences for the loss of your lovely mother/grandmother. I knew Judy from working at Westland Elementary. I have fond memories of her and her kindness. She had a beautiful soul that touched many lives.

This obituary does an excellent job of describing this beautiful, kind woman I was so grateful to know and love. She truly radiated Christ-like love. I adored her as well as several of her children that I came to know well. My heart is full of love for you all and I look forward to sharing the service by zoom since I am in Arizona. Thank you so much for sharing it.
