For many years I've enjoyed Frank's wit and zeal for life. He will be missed by us but treasured by loved ones already passed. There is no doubt the love Frank had for his family as he spoke often of each with tender feelings.

So sorry for your loss. I wish the obituary would name his children.

I believe he was my chemistry teacher at West High school.

Dear Tidwell's - we are sorry to hear of Frank's passing. We have shared many memories with Frank over the 40 years of being friends and neighbors. We'll never forget moving into the neighborhood and finding another Tidwell family just around the corner. Our genealogical relationship was not terribly close, but Frank will always be remembered as our brother.

Frank and I were friends from Sandy Senior Center. Behind the elderly facade I discovered an interesting individual with fascinating life stories....lots of them! I really enjoyed hearing about his service in WW II in Trieste, Italy, a town I had traveled through when I was a student in France. Also family stories. We mostly played Scrabble together. Frank's disappointment was acute when his mobility declined and the center's bus could no longer transport him the two miles to the center. Frank loved the singing and dancing activities at our Center. He had a great Smile! We were both educators with many interests in common. Rest in peace, Frank. I was honored to know you.
