

Carolyn Crofts

February 16, 1937 ~ May 30, 2020

My heart is saddened to know that Carolyn is no longer with us. She is now at peace and will be missed. To her family especially Georigia, God bless you all.

- Andy flower

Carolyn was a member of the Thursday Team at the UMFA. We became friends and I loved her stories about driving race cars. Elegant and dear and made a mean chicken salad. Sadness and sorrow at this time. She is a light that will always be with me.

- Lynda Fletcher

I enjoyed my friendship with Carolyn while we were docents at UMFA, and for several years after she was unable to give tours at the museum of art due to health challenges. We first met in the classroom when we began our docent training and became good friends at that time. We enjoyed meeting for lunch periodically and going to different art exhibits around the valley in Utah. I miss her warmth, kindness, wisdom, gentleness and many other lovely qualities she possessed. She was such a beautiful woman and example to me. I will think of her often with tenderness, respect and admiration! Affectionately, Janine

- Janine Hutchinson

Carolyn was such a lovely person! She shared her insights with me when I started as an art docent - she was one of those people that you just wished you could be like. I have missed her the past few years and am sorry to hear of her passing.

- Kimberly England

Carolyn was a lovely lady, whom we met when we served with her on the UMFA Thursday Team. She was a thoughtful, kind, and talented woman. We are happy to have been acquainted with her. We wish her family our sincere sympathy.
