Kaysha and family, I'm sad you have to go through this. You are an amazing person and show love in all you do. I suspect its from your mom and dad and family. I hope you know you have a lot of love and people that care about you.

I know this is a tough time for family with the loss of a loved one. I will keep your family in my thoughts and pray through this time of need.

We are so very sorry for the loss of your father. We knew how much you loved him and that love will continue on. Please know that you are our thoughts in our prayers as well as the rest of the family. Call me if you need me call Karen if you need her we love you bunches and we are a couple of digits away. If you plan to bring him home you’re welcome to stay here. I won’t have a crowded house this time much much much love Sherri and he’s been in hospice Karen.
