You were a brother to me, an uncle/ male role model to my children & grandchildren, who often looked up to you. Your presence of unconditional love and selfless gestures maintained the family as we developed our own lives. I admire your strength and resilience during these past years, even when you were not physically functioning to your capacity. Somehow you always managed to smile, and make others smile, comfort the kids, embrace any challenges but most important, always being of service to others without judgement. I will never forget your words of wisdom, laughs, crazy days and what you meant to all of us! I'm grateful you are no longer suffering in the 3D physical world, as I'm confident you are one with the universe, God, your angels, Mother Mary and ancestors who have passed before you. Enjoy your peace and infinite abundance, until we meet again Bro! Love always.....

Marina, I am so sorry for your loss. I remember the times that Alejandro would come over to the college and he was always so kind to all he came in contact with.
