

Allen Patrick Ferris

March 31, 1967 ~ August 27, 2025

Allen, you will be missed. You are a great guy and I will cherish the experience we shared camping and doing scouting. And especially with your boys, my heart goes out to your boys.

- Jared fordham

Rest in peace brother. Thank you for all you did the community, Veterans, and training new Officers. You were an incredible man.

- Kevin Borrell

Your a great man! We had some good times working in the old jail.

- Neil Swensen

Dakota, Ryan and Skylar, I feel so blessed to have met your Dad on special occasions, most notably your Courts of Honor. I remember how immensely proud he and your Mom were, and I have no doubt that same feeling has only increased in intensity over the years because of the amazing men each of you has become. I believe in guardian angels who watch over and assist those they loved the most while on this earth. He is yours. I know you'll always have him close in your hearts and minds by remembering the lessons he taught you and by recounting his stories with one another. Love & aloha, Pania

Such a tremendous loss for so many reasons. He was one of the best men I've known. So sincere. So dedicated. So reliable. You'll be missed tremendously Allen. Know you left your boys understanding what a great person embodies.

What a great friend and co-worker. A man I came to know while we worked in the jail together, worked the road as deputies, and the guy who talked me into going to the VA to rest as we tried to semi retire. Your sons will miss you as will I. See you again on the other side.

- Kevin Barrett

Allen, You were always a voice of reason, humor and an incredible mentor, proud to have had a chance to serve with you. See you again Brother.

- Stephen R Werner

Allen was an awesome neighbor. He always made great comments about how hard I worked in the yard and always made a point to ask if I needed any help. I am so sad to hear of his passing! Prayers to the family - I will always remember his kindness!

- Lori G.

My father worked with Allen at the VA. Allen always had jokes and smiles when I visited. I was a 911 dispatcher and I ended up at a training with him. I was pregnant at the time and having complications, he was very protective of me and made sure all the other guys were kind and gentle towards me. We sat at the back and were constantly getting in trouble from laughing too much. RIP sir. Croz says see you on the other side.
