John was my horseback riding buddy when we were preteens. And of course we'd usually end up racing our horses. Fond memories. My condolences to his family.

Our sincerest sympathy to John's family. John was Gene's cousin, and he remembers him as a level-headed kid. I remember Johnny Appel in school as anything but level-headed! (Roberta Rubert, I was in Janice's class). He was a blonde headed, blue eyed little character! But a cute little character that could get away with anything! We're sure he grew into a great gentleman and family man, and we are so sorry that he is now gone from that family.

We are so sorry for your loss Mary and all your children. We love your family so much and cherish the times we were able to come visit you. My youngest girls think of you both as their grandparents. They have great memories of riding bikes, playing with your toys and hearing advice from John after which he would give them quarters for being cute. They used that money wisely despite his advice to buy more ice cream. I remember as a teenager his advice he gave to our Sunday school class. I used it and I thank him for protecting us girls. I also remember spending many weekends at your home and feeling very welcome and loved. John was a loving teacher, mentor, husband, father and neighbor. And the most generous man I know. Thank you for letting our family be a part of your life. Love always, Kaissa Gurvine

Truly one of the most unique, amazing and funniest persons I have ever met! I will never forget him and his amazing humor! He will be missed by my entire family!

This is one of the greatest men I have ever met! I am a better man for just knowing “Grandpa Apple” we affectionately called him! He is securely in the top 10 best men I have ever met! I will never ever fall a tree and not think of him in fact I still have some of his tree gear hanging in may garage and I get all warm and fuzzy thinking of all the fun we had over 3 summers falling trees! He taught me so much! And I consider him as my father! You will be missed I’m sure you have already started falling trees in heaven! I remember when you had me fix the gas pump and gas lines on that old RV and you we’re going to drive it to California, I said it would never make it and thought you were crazy but you did get that bucket of bolts all the way to cali, overheating the whole way, until we meet again my brother! We were saddened by the passing of John. He and Mary are delightsome people. Full of life, funny and Mary is a good cook of goodies. We will miss the strong Johnny Apple in our ward. Their love was pure and showed when you saw them.
