

George Jay Carlisle

August 21, 1943 ~ December 5, 2021

Sharon - Sorry to hear of your losing Jay. A great guy who was a true friend to many. He will be missed. Condolences to you and your family.

- Dennis T Sauer

Sharon— I read with a heavy heart of Jay's passing. He was one of my favorite employees for the time we were together in the Maintenance group and afterwards. I always enjoyed interacting with Jay, whether it was problem-solving or just socializing. He was truly a jack-of-all-trades. We lost a good man when we lost Jay. May you be comforted by 58 years of precious memories. I hope you are doing well.

- Paul Beyer

Dear Sharon, Tom and I are sending our sincere condolences to you and your family at this time for the loss of your beloved husband. Jay was so much fun and we enjoyed you and Jay on our trips and travels together. May your memories be many and you can cherish all the good times. Our prayers and thoughts are with you. Love and friendship, Tom & Barbara Udy

- Barbara Udy

At ATK, Jay was the plant expert in design and maintenance of hydraulic systems. His work still operates today as he intended it. But more than that, Jay was a warm and amusing person who took this greenhorn engineer under his wing. He patiently taught myself and many others the methods of hydraulic madness. Office discussions of fly fishing, his wife Sharon and his cabin in Henefer will be memories I won't forget. Jay was loved and respected by all and will be missed.
