

George Rex "Sam" Parker

September 23, 1937 ~ June 25, 2023

Dear Saundra: This is a long time ago memory for sure. I am the widow of Rod Cragun and we attended Dental school at Washington University when you and Sam were at St. Louis U. We loved Sam and enjoyed our time making memories with the two of you. We did visit you once in your Salt Lake home. Rod passed away of a brain tumor in 2001 so I have been alone for a time. So thankful that we have the gospel of Jesus Christ and we know that all promises are kept and we will be with our sweet husbands again.

- Mary Beth Cragun

My second attempt. I don't know if another one was sent - but we are so sad to hear about Sam's passing. I just saw it on an "In Memory" page in the paper. We were able to watch the service as it was still on Zoom. He evidently still had much enthusiasm for life. I don't know how to contact you so starting here - my phone # is 801-368-7860. We have so many good memories of our time in dental school and sorry we lost contact but would love to hear from you. We are still in Orem and talk to Clyde and Jeanette occasionally Norm and Clyde have both had some health challenges but we are still functioning although not at high speed. It was good to see your family even if it was on Zoom. Such nice tributes to Sam and the great father he has been. Our love to you and your family. June J
