Back when I first met George he was working on a yellow De Tomaso Pantera. There have been many years since. He raised a great family and his children are to be proud of the same for his grandchildren and great grand children. I am proud to have met him and his family—condolences to all

We were neighbors a few houses west from George and Judy and we loved when we would catch George out on his daily walks. We share a love of boating and swapping the fun and frustrations of being on a lake in a boat. We never seen George without a smile and a little twinkle in his eye. He was a delightful man. We are so sorry for your loss and may your sweet memories bring you all peace and comfort. Jerry and Karen
