

Ardith Jeane Richards Moore

July 8, 1931 ~ September 4, 2022

Sending our love to the families of Grandma Ardie. We have many sweet memories of times spent together. Wishing her peace as she resides with our Savior. Sincerely, Gary and Gail Sauter

- Gail Sauter

I would see and talk to Ardie when she worked at the University of Utah Nursing Building, I was doing maintenance at the time and each month I would come and tell her that I would be running the emergency generator for the building to keep the insides oiled enough to start when needed. Just before she retired the power went out in that building I went in and the power was off to the building and the emergency generator did not come on, I called dispatch on my radio and had the currant mechanic come to look at it to see why it did not start, called and ask for an electrician to come and see why there was no power to the building. I was to work on the Air Conditioning but with no power I did not go down into the dark:) I missed her when she retired.

- Kent Leary

Sending our love and condolences to all of her family and friends. We are indeed grateful for a loving Heavenly Father that created such a marvelous plan of salvation for us to one day return to live with Him and see her infectious smile again. With much love, the Brad & Britany Betenson Family.
