Surprise of all surprises to see Richard is gone. Knew him from the time my family moved into the neighborhood up the Street on 11th East in 1954. We were friends but really not best friends even though our birthdays are like two months apart. I went to parochial school downtown and he went to Douglas close by. Yet upon reading the notice I remember constant interaction with him and his family until we both grew up and moved into our own places. The Robinsons and his sisters were welcoming and warm to little Tim from up the street. They as much as much as Richard were a warm and safe place to visit something I appreciate to this day. As adults we kept bumping into each other over many decades. Those encounters, when we had time to chat, were always pleasant and interesting. I especially loved to hear about his mom and his care for her. One encounter revealed more about the man than anything else. I bumped into him at the golf course driving range. Someone said "Funk get you rear end out of the way we got lessons to give here." Obviously it was Mr. Richard. He had a herd of disabled kids and adults and service dogs trooping on to the range for group golfing lessons. He told me it was a summer project he had been key in organizing and it was one of the best things he had ever done for the participants and "himself" he

whispered. Certainly there is more to say, there always is. Pretty clear he left us here knowing he did what he wanted to and was pleased with it all. When I move on I am pretty sure we will meet up again. Just where and under what conditions remains to be seen.

Tee it up with Douglas. I'm sure he's got a tee time for you two. He had faith in you to carry on the golf program at the Cottonwood Club after he left. Happy memories.

I am very saddened at the news of Richard's passing. And so very glad to have known him, even briefly - as Patricia's brother. His inviting nature and love of life was so very appreciated. My heartfelt sympathy to Patricia and Richard's entire family.
