Deanna, Danette and Matthew, Thank you SO much for including me in the recognition of your mother's life. Boy, that takes me back a long way. Back to when she and I both served on the PTA at the elementary school on Green Mountain. You were all young children...mine were younger still. Your mom and Jean and I shared some good times and some good memories before life took us in different directions. I send good wishes to you and your families. I believe you have handled your mom's transition in a personal and very appropriate manner. Thank you for including me. Jane Crane (in Huntington Beach)
