Blessed be all of your loved ones who come together in this time of sorrow. May their fond memories bring them comfort and your well lived life bestow upon them mercy as they grieve. Remember , my friends, that eventually, your tears will turn to sweet smiles when you are reminded of the gifts you possess from this dear man while the earth was graced by his presence. Somewhere in the distance he will reach out to you, be it by a gentle breeze or a familiar scent. In these moments your heart will be forever enriched by these gentle touches that come from him, to you, in the future. He is always with you and the love you share will forever be a cherished beacon in life. ■■❤■
