I’m so sorry for your loss. Joan was very instrumental in helping my son Mark, who has autism, reach his full potential. She was a wonderful advocate in helping to assure that his needs were met. I learned SO much from her and was able to pass along her knowledge to many other people over the years. I know Joan helped many people. I was so blessed to have had her in my life. Thank you for sharing Joan, and again I’m so very sorry for your loss.

Joe and Paul, So sorry to hear about your mom. We have always loved her and have fond memories of our time spent with your family. She was very good to us. May the Lord comfort you at this sad time.

I want to let you know how much I loved Joan. She had a heart that brought you into her. We would find each other after or before church. And we would hug and tell each other how much we cared for each other. That was unique to Joan. I will miss her so much! Love, Sharron Cowan

I am so very sorry for your loss, Paul, Amy, Braden and Britney and the entire Herrick family. Joan was always such a sweetheart when I got to see her when she visited Ohio. I will miss her.
