Bessie Gail Fifield Saxton

April 16, 1940 ~ January 26, 2024

I met Gail when she first moved into Country Home Assisted Living. She was always sweet and kind with all of us. The day she left with her husband, I gave her a note telling her how much I would miss her and how much I loved her. I also gave her a container with the soup I always made for her, and she loved it. When she returned to our facility, she felt at home, and she showed me that she still kept the note I gave her that time. She enjoyed my homemade food and always talked about her children, how much she loved them, and how happy she was to have had surgery on her eye. I will always remember her as the beautiful grandma I never had, but life gave me anyway when I met Gail. Rest in Peace Dear Gail! I'll always remember you!!!

- Mónica (from Country Home)

Sending my condolences to the family and friends of Gail , she was a great babysitter to me and family friend of my mother

- Sophia Goins

Gail is a beautiful soul, and we miss her already. Yes, she has a great sense of humor, and we did a lot of laughing at cousins' lunches and the Shakespeare Festival, when we ran into her and Maren down there. We've our good old days together often. She has left a beautiful example of faith and service here on her earthly mission. We know she's taking care of you from where she is now. Much love and sympathy, Loron and Cathy

- Cousin Loron and Cathy Marler

I am grateful for the family ties that I have with Gail. She is one fun cousin:):) I loved to be at family reunions and other events when beautiful Gail and her sisters were there. There was always so much laughter and good cheer:):) I loved the times that I got to meet some of her beautiful, brillliant and talented children. I could feel the tender,loving bond between Gail and her children. Seeing the love and kindness that they have for each other makes my heart swell with hope and love. I so appreciate Gail's tenacious abilities to care for children, and keep up with with so many other things. Her good example has been a helpful force in my life. My thoughts and prayers are

with you....(Gail's loved ones). :) Sincerely, Cousin Kris Marler Olsen

- Kristine Marler Olsen
