

Beverly Jean Stephan

April 5, 1927 ~ August 7, 2025

She was my Father's first cousin. I spent many delightful minutes talking with her. Always amazed at her remarkable memory even in last years. She could tell me my great grandfathers address after he retired and moved to different area. He was not even her ancestor. Thanks for pictures. Her brother Richard was both the head of the Electrical Engineering department that I graduated from and later an occasional lunch companion as we could talk about voltages, amperage and microwaves. He was at the first Hydrogen Bomb test while in the Navy doing his assignments, and it was talking with Beverly that reminded me to get back into conversations with him. Beverly grew up on the same street that I did but was probably married and off elsewhere when my acquaintances expanded, but she remembered visiting my family up the street when she was in high school about the time I was a very small child. She was very active driving to various events of children and grandchildren when I returned to living in SLC and got in touch with her and started attending reunions that she supported greatly.

I was so sad to hear of Bev's passing. I remember her as a very sweet woman. I'm happy I had the time with her that I did. I'm sure Fred was so happy to be with her once again. Swedishalander@aol.com

Janae and family, Your mother was one of a kind. She took me in and talked with me about Horne family stories that I will always cherish. Her humor benchmark of our conversations. Love to you and your family.

- Julie mertlich

What a beautiful tribute to your mother, grandmother, great grandmother at yesterday's funeral. Sid and I send our love and condolences. We really felt the love. Bev was/is a wonderful example for you all to follow (as many of you already do). I was so impressed to see that from two children came so many wonderful descendants. What a happy celebration of her life well lived♥■♥■♥■♥■
