I am so sadden at June's passing. My father is Irlam Blackledge Owen, (Junes first cousin), and my Uncle David (my dad's brother) is who your grandmother (Lois) raised after my grandparents died. My dad's father was David Albert Owen who was your grandmother's brother. I have tried to call her but received no answer, now I know why. June and I got together several times as we both loved genealogy on the Owen side and she gave me some photo's that pertained to my dad and the Grow family. I am not able to attend the graveside services, but I am watching it on zoom. I will miss our conversations about the family and knowing she was my family, as she was the only connection I had, as my grandparents died before I was born in 1946. My thoughts and prayers are with all of you. I would love to meet you if that is possible. I wished I had known as I would have loved to have said good bye to her.
