Bev and I began life as first cousin during the era of WWII, and remained close over the years through family reunions and holiday gatherings. Though as adults we were separated by many miles. Then in our declining years, we reestablished a closeness not only as first cousins but as dear family friends. Getting together as cousins a few times a year, to talk of the past and sharing stories of our lives and enjoying small trips down memory lane. Now dear cousin you have stepped into the other side and once again you are surrounded with dear family and friends, who preceded you. I miss you Bev, but know that you have finally escaped the pains of poor health and infirmities. Love, Cousin Gary

- Gary Turner

So sorry to hear your mom passed. God bless

- Lynn Gray

My dear friend Bev & I met February 2005, when I started my employment at Salt Lake Orthopaedic Clinic. We were immediate friends. We seemed to share the same events in our lives. Bev & I were like sisters. After she retired, we met for lunch. When I retired & Bev could no longer drive, I would pick her up & away we'd go.

Sometimes just lunch. Other times lunch & a trip to Smith's or the library. The stories we shared!!! As Bev's health declined, I would bring lunch to her & have a lovely visit in her home. One time last year, she told me that she had a dream. She said Glenn had swept her into his arms & they were dancing & she was happy. Then she realized it was a dream & Bev was mad. She said the dream was so real & that she wanted to be with him. Bev had a wonderful life. I am truly blessed to have been included in that life.

Dear family, 5-29-25 It was wonderful having the opportunity to visit with you tonight. Your Mom was a special friend. I love her and cherish the time I was able to spend with her. We visited a lot about our families, and I pray your memories will sustain you through this difficult time. Sending love to all. Lynne Riding

It was an inspiring, uplifting funeral today! Yes, I remember a positive note I received from Sis Beverly in 2017 when I was asked to leave CHS as a Math Teacher; I was so sad. . I felt her prayers too and know prayers were answered cause THS asked me to come there AND made my last few years so rewarding!!

- Patty Bergstrom

Loved Bev, enjoyed both your parents. It was fun watching you kids grow up, glad to have been a part of your family's life. Bev, was a great friend and loved the books she choose for book club.
