

Karl Perry Woolsey, Jr.

March 14, 1934 ~ March 30, 2024

Such a Gentle Giant. I will miss being able to serve you meals. Thanks for bring such a Special person. I will take care of your beautiful wife Jane. Prayers for the family per comfort, and know how much Perry was loved. Sincerely, Karen. (Riverway)

It was a pleasure to take care of Perry last year. I love his quick humor and ability to give me a hard time. I will treasure the walks I had with him and the talks. I felt like I was taking care of my own Dad!!!! I will truly miss him!!! Love to all your family!!!

We knew the father of my friend Steven Woolsey as Perry Woolsey. Perry had a knack for technology and was always up to date with the latest computers and gadgets. He brought our scout troop for a tour of the State of Utah computer center where we walked up on the raised floor and saw huge tape drives and IBM hard drives with glass covers where you could see the mechinism work with probably 16 megabyte capacity! He really shared his skill and enthusiasm for technology. I also remember Perry singing in church choir and performances. He was a good man who set a good example and lived a full life. I would be lucky to have a proportion of his great experiences. He will be missed and I send my sincerest condolences to his family.
