So sorry for your lost. She was a real friend or enemy as the situation required. I loved her. Despite our young girlish escapades. I love the Johnson family. Love Nancy

I was so sorry to hear about Kathy’s passing. Many fun times were had by our group of girls in our neighborhood. Rest in peace dear friend.

I came to know Kathy through Brandon and Jeff. I still can’t drive past that I 35 intersection without thinking about those times. It’s hard for family to know what a person/parent is to others, who don’t see through the lens of being family. She was always kind, inquisitive, and generous with me. She always offered good conversation, and hospitality without expectation. I value the opportunities I had to be in her presence and am sad that I will not have that opportunity again. She leaves that as her legacy with me.
