Patti, Your description of Blaine’s life was so appreciated! How much he tried to look out for your family and you in so many ways. So sorry this has happened, wish we could change these heartbreaking events! Hope you will come back to Loreto before the end of the season in April! It will be hard but you will be surrounded by a few women warriors, and others who want to ease you back into our beautiful life here. I will be one of those women! Can’t even imagine your trauma. Hope you can find some little rays of warmth, joy and lots of love! ❤■ Lorene
