So sorry for your lost it’s never easy to loose a family member. But being a member of The Church of Jesus Christ of Latter Day Saints teaching makes it much easier to accept. God Bless each of you at this time. To all members of the Sturzenegger’ Family! Todd, Steve, Dave and other family members. Shirley A Blakeman

We lost a great friend of square dancing in Ken. It was an honor to have been able to spend that time together during his life. Such a beautiful obituary. There was much we still did not know about him. One thing we will always remember is him personally thanking us for a great night of dancing, and how much he appreciated our contribution to the activity. Ken always gave at the door whether or not he danced. He will be greatly missed. Our sincere condolences to his family.

Kenn was my cousin 1st cousin once removed. I am 5 days older than him. I did not know he passed or I would have come to his service. We both went to West High. Kenn had a brilliant mind. Often said by teacher's that he had the highest I.Q.. in the school. At least we were Facebook friends. So sad he is gone....
