She was a very special lady, and a wonderful aunt. I would remember when we would come over to her house, and she was always willing to cook something for us. She would offer us some zucchini bread either a slice or a whole loaf. She always cooked really yummy food. She will be missed very much. I loved her tons.

We have lost a very classy lady that looked top notched all the time, she was a fine example to all that knew her. She will be greatly missed. Love Shirley
