

Bradley Dean Stewart

May 4, 1958 ~ November 29, 2025

I am absolutely devastated by Brad's passing! I thought my son would have years of him being a father figure! And I had so hoped for Andie to have the same! He was such a good and gentle man. He was everything you could ever ask for in a man.. I am so sorry for your loss and for my family's loss as well. We are here to support you in anyway that you need..

- Cheryl Anderson

Words seem wanting in the face of such a sudden loss, please know our thoughts are with you and your sweet family as we grieve with you at Brads passing and your temporary but difficult separation from him. His quiet presence could calm a room and his engineer's mind never stopped exploring the vast handiwork of God. We remember how effusive with praise for Brad his Mission President was as Dad first watched him grow into the remarkable disciple he became, straight into the heart of the beautiful lady he would marry! Your daughters and grandchildren have lost a hero, and we have lost a cousin whose spiritual and mental strength lifted everyone he met. We loved him and we love you.

So saddened to hear of Brad's passing. He truly will be missed. His perspective on his work at Public Utilities shaped and influenced many lives, mine included. I still use some of the spreadsheets he created. He was and still is very proud of his family, of his girls. His humor, his love of engineering will be missed but his memory will live on in all the lives he's touched. Thanks for letting him be a part of my life.

Brad was a mentor and friend. He was endlessly kind and thoughtful. He taught how to be a better engineer, better friend and a better person. He will be greatly missed. He talked of his love for his wife and daughters often. My most sincere condolences to his family.

Thought the world of Brad. I worked with him and learned from him during his time working at Public Utilities and also on the SLC Credit Union Board. I much understood his type of mission experiences since I was in Scotland about 10 years before him. One thing he told me that few would know is that at times he saw music or numbers as colors. He could see things most could not. We collaborated on many work projects and his insight was phenomenal. My condolences to Janet whom I know well and his children and grandchildren. So sad, Brad was such a good human being.

I am so sorry to hear of Brad's passing. I worked with Brad's for many years and you could not find a nicer, friendlier person. We would often talk about the best age to retire and Brad's kept pushing it back, year after year. I would like to offer my condolences to his family and tell them how much I admired Brad. I pray that God will comfort and bless you at this time.

Hearing of Brad's passing today is truly difficult. I was fortunate to work closely with Brad at Public Utilities over many years. He was my first boss at SLC Public Utilities and I can never overstate his influence on my career and day to day life in demonstrating absolute kindness and patience in difficult situations. His passion for public service and willingness to help on any front was something beyond. When Brad walked in the room his presence was always calming and helped move things in a positive direction. My prayers to his wife and daughters, he often spoke highly of each of you and may God's peace comfort you. The world lost a very special person, I am just grateful I had the fortune of knowing Brad.

Brad is one of my most favorite people ever. He will be sorely missed by many. Janet, Megan and Alisha my thoughts and prayers are with you!

Our eldest daughter said Brad "always had the calmest, quietest voice." Our eldest son says he also remembers Brad's voice, as our minister, and that "when Brad and his companion would come to our home and teach us, that played a big part in my testimony." You were such a blessing to our family!

- Dwight & Jillyn Epperson

Brad & I were in the Amherst ward where his dad taught at umass and his dad was our bishop. Very spiritual man and even though at the time I made little littlle to be a disciple of Christ , I believe Brad did. I had no idea Brad lived in Slc where I live. Sorry I never saw him since our time in Amherst. Great human. Quiet but thoughtful. I wish I made a greater effort to be his friend. he always impressed me that he was like the prophet Jacob taking the teachings of Jesus seriously. I'm guessing he's been a great asset to his family and those who knew him. I'm sorry for his loss

To Janet, Megan, Alicia and the entire Stewart family: What a profound loss. I send all of you my love and condolences with Brad's passing. I was another of the greatest fans of Brad while working with him at SLC Public Utilities. He was kind and generous to me from my first day till my last. I am quite sure I've never worked with a better listener and a more patient man than Brad. Brad was a rock for so many in the department. Your lovely obituary captures him perfectly -- always willing to help and to serve in any capacity, with a brilliant and curious mind, and a fun sense of humor. I loved his stories of growing up surrounded by nature, and I loved his quiet faith. I am sure he is near.

- Holly Mullen

Dear Janet and family, I am very sorry to learn of the sudden death of Brad. I can't imagine how difficult that is for all of you. I pray you will all be comforted in the knowledge that families are forever. I interacted with Brad often when he served on the Salt Lake Credit Union Board of Directors. He was always so pleasant, professional and helpful. With deepest sympathy , Cindy Nelson
