

Brent B. Kelsch

October 9, 1970 ~ April 24, 2026

Brent has been so generous with his knowledge over the last several years helping my husband learn more about how to maintain and repair our HVAC systems for our business. He was reliable and kind, funny and friendly, his integrity and care for his work was obvious, but also his sincere interest in teaching and willingness to share. He made my husband laugh so much, they would be out laughing and chatting for a long time after the project was over, Brent was truly a teacher, sharing his knowledge, empowering us to learn more. We will truly miss interacting with him and are so sorry for your profound and sudden loss.

- Kelli and Joel Cooper

My last text from Brent: I really appreciated the wonderful people that the Lord surrounded me with and I was so sorry the Lord chose to move us but what can ya do, all is as our God wills it. I truly thank you for all that you and yours did for me and mine...may the Lord our God bless you for time and all eternity.

- De Anne Barron
