

Linda Lee Gorringe

November 8, 1940 ~ April 6, 2026

We loved Linda and Wayne!!! They were lovely neighbors and friends!!!! I'll never forget how Linda always made intentional eye contact with me each time we chatted!!! I loved that about her!!! And those beautiful eyes!!! Sending you all a big hug at this hard and emotional time!!! ❤■❤■❤■

- Deb Coffey

I worked with your beautiful mother at UTA. She felt like family right away. She was elegant, put together and classy. We had so many long talks and laughs. She showed interest in my life, my husband, children and my grandchildren and always remember things going on in my family. And she would ask specifically about each of my loved ones. I looked forward to our lunches and time we could spend together. She loved her children, grandchildren and great grandchildren intensely and was so proud of you all. Her thoughts were always about the next family gathering or trip. In her last text to me she said "go and do all the things you can with your friends and family because you never know when you won't be able to." I will miss her advice and love. Sincere condolences to your family.

- Margaret Dukatz

We love Linda and Wayne. They were always such wonderful neighbors and friends!!! We have missed having Linda close by. We can picture the joyful reunion between the two of them and we are happy they are together again. We loved your tribute to her in her obituary and always felt so welcomed and appreciated when we visited together. She is an amazing woman and friend. May God bless and comfort you during this difficult time of loss. Our sincere condolences to all of your family.
