We are both so sorry to hear of your loss there is nothing to be said when you have someone you love pass. Just always remember the good times and the fun and simple lifes of when you grew up together

Oh, I am sorry to come across this while looking for a neighbor. I was Brett's 2nd grade teacher and loved him. He did have such a "sharp" bright mind, a careful eye for neatness and details in work, and was just an all-round amazing student at that age. He was always obedient and a joy to have in class!!! I also served in the Primary Presidency over him at the same time when he lived off Creek Road. I laughed because, he was a little naughty in Primary and I thought this was so in contrast to how he was in school!! (In fact, I was just telling someone that story last week!) I hope his family finds peace in this time of life, and know he is watching over you still. He will be present in all your major life events! He looks to have grown into a handsome man....but I still see him as that sweet 8 year old. So sorry for your loss!!
