My Sweet Bridge.. I was Sitting out back eating a bowl of watermelon thinking of you and wishing so badly that you were here to enjoy it with me. I miss you so much buddy.. please watch over our Family especially, over your Mom and Brother's! Fly high Angel, you are so loved!! Aunt Lisha will forever love you and hold you close!!

I just wanna say I'm so sorry this has happened and I'm so grateful for the time I got to spend with bridjer watching him work, he was truly amazing he knocked all us tech out of the water when he came, we have a stat sheet that shows who did the most and sold whatnot the most and when I say bridjer would cover that board in his name every week I mean it ! I truly look up to him and who he was and he will be missed forever #justiceforbridjer
