So sorry to hear of Marcis Passing. We worked at the same High School for about 30 years. Marci was liked by most of her students and really cared for them. We also atrended the same church.

I went to school with Marci for our Masters degrees in French, and she was my roommate for a summer. The thing I remember about her was her love for her show dogs; she even brought with her some professional photo shots of them. It sounds like she lived a very full life. My condolences to her family.
