Bruce lives on in my memories, at the Beta house, Country club and working together. What a great time we had, living at the beta house and laughing for years afterward. I’ll miss you but see you again in the SKY Darrell Reed - KAI -

Oh, Bruce, I am going to be so sorry to not see you on our dog walks. Fenton will surely miss the much better treats that you always had available. I hope you, and everyone who loves you, know how much you helped me when Bill died. I valued your calm acceptance of what this wonderful life has to offer and your constantly positive outlook (that was playfully camouflaged with some snark) you were, and are, an example to me. I will miss you

Bruce, You were one of those souls who would always give a wake-up call to "get life right- now!" There were those times that you stopped to chat while on a dog walk. You had that sparkle in your eye and that Bruce mindset of "there's a person who might just be a great new friend!", just classic Bruce. Then life got tougher for you, including much pain. During those hardships, you still maintained your dignity and grace; teaching others a better way to live without even realizing it. Bruce, you are missed. Every day you chose to smile, and you made others smile. A huge hug and much love, and hoping to see you again! Geoff and Patti

As soon as I saw the Utes U light from Bruce’s window was no longer there I knew Bambi was gone. My heart is full of sadness for his family, friends and his loyal Wrigley. Bruce and I shared many good talks when I would see him out while biking home from my job. I had the pleasure of working on his memorabilia Utes picture frames. I was touched that he appreciated and supported my craft. Bruce had an impeccable sense of design. I will miss his infectious smile, love of special jewelry, generosity and his sarcastic wit. He was one of a kind. ■■ Rest in peace Bruce.
