

Bruce Thomas Chamberlain

Dec. 10, 1964 ~ April 4, 2023

We can't express how shocked and surprised we were to hear of the premature passing of our good friend and former neighbor Bruce. He lived next door to us on Marblewood Drive in Riverton for a few years. What a great neighbor and good friend. One day he absolutely thrilled me by asking if I wanted to go flying with him. I accepted, we went and he let me fly the plane. Phenomenal experience, fantastic memory. We struggle to find the words sufficient to express our sympathy and condolences. Just know that Bruce made a very positive impact on us, as he did no doubt on so many others. We will miss him. May God comfort you all in your sudden loss.

I was shocked to hear of Bruce's passing. He worked with my husband Dean. I remember him as always smiling and full of life. I do understand the grief that comes when your loved one dies. Hoping that wonderful memories can help ease his family's and friends grieving.

Bruce was a kind and friendly person who was easy to get along with. It was a real pleasure being able to call him friend. Deepest condolences to all his family.

Bruce was an amazing person and someone I will always look up to. He was one of my mentors at Siemens. As I was the new young guy on the team, he would reminisce about when he was new and taught me some very great lessons so I wouldn't have to learn the hard way. I connected with Bruce about our passion for motorcycles and airplanes as well. I'm very grateful for the time I was given to learn from him and get to know him. My prayers and condolences go out to his family.

My heart goes out to Bruce's Family and children. I have known a Bruce for a very long time and he worked on some of our equipment. I had the pleasure of meeting Kyle when he was just a little boy and Bruce brought him along on a call. He was so proud of all his kids and made sure to keep us filled in on all his endeavors. We always shared motorcycle stories and ride suggestions. He had switched duties at work and we got to see less and less of

him, and that made those rare times when we did see him even more enjoying. All of us at the University Ortho Center were shocked and saddened at the loss of a very special friend.
