We love you and will miss you everyday. You've brightened our lives and advised us on all our after hours pediatric medical issues. You've been here to love and support us. Give a hug to Merrill. Until we meet again. The neighborhood won't be the same without you.

Your Mom was a very talented lady! When I was about 10 years old she shared her pecan toffee recipe with me and I still make it today! I remember many fun trips with her to Yellowstone as our families did a lot together in the early days. You planned a beautiful funeral service and I am sure she is proud of all of you! It was wonderful! Sending hugs and condolences to your family!
