Dear Christie Family, Sending love and sympathy in the loss of your Dad. I got to know him well when Mike served as his counsellor in the Richards 2nd ward Bishopric. I served as a counsellor in the Relief Society presidency during that time and received good and kindly advice from your Dad. We loved and admired the Christie family. We are blessed to have gospel knowledge to help comfort us at these times.

It was GREAT to know Bishop Paul and Melba Christie. I love both of them. Our Rishton family lived up the street on Wilson Ave. Both my parents knew the Christie's and thought highly of them. I became acquainted with his wife Connie as they moved out to Sandy and happened to move into our Stake. I hope all goes well with the funeral and all. My condolences to all the family. Sincerely, Chari Rishton Engle

I am pleased for Paul to have lived such a long and productive life. We worked together for quite a few years at Heath Engineering Company and I was familiar with some of his previous employments. Paul was a genuinely good man of many talents and outward reach efforts. He was a man of intent with equanimity. I hope that his goodness will be reflected in his posterity and acquaintances for generations to come.

One of the Brightest minds, one of the kindest hearts no longer lives on this planet,. yet still because of quality time he spent with his family, friends, relatives, and all his acquaintances, his presence will remain here on Earth far longer. We loved our uncle and he showed us often the genuine love he had for everyone. We are sure that he will live in our hearts and minds for generations to come.

Paul Christie was an incredible individual that was always full of love and kindness. As a Bishop and in his other callings he was an inspiration to all because of this great faith in the Savior and his diligence in living as the Christ lived and leading as Christ lead. My condolences to Kent and his siblings, what a blessing to have such a wonderful father.
