

Paul Richard Nelson

January 6, 1954 ~ September 6, 2024

Steph, so sorry for your loss

- Dr John

I was stationed at Hill AFB from 1988-1993. I knew Paul as "Captain Nelson" and he was my direct supervisor is 649 ABG/SVS/Mortuary Affairs/ Search and Recovery. I loved that man! He was the master at managing and overseeing such an emotional and mental stressful job! I lost contact with him for years until I found this obituary. And I must say it completely broke my heart! Especially when I saw that Kathi had also passed! My love and prayers are going out to his family! God bless you all!

- Charlie Brown
