

Peter Quentin Freed

January 8, 1921 ~ August 29, 2020

I had the privilege of working for Peter for a number of years. The last 6 in close proximity. I learned so many things from him over the years from how to work with and manage people. How to be a father. But most of all how to treat everyone in general, no matter their place or station in life. RIP Peter, truly a hero in my life.

Kristen and Anne, I just want to let you know that I am thinking of you and remembering my encounters with your kind father. Martha Smith Taylor Crepery Cupboard & The Children’s Center

Dear Mike, I actually am not sure if you are the son of Peter, the "Michael" Freed of our Sam Weller's bookstore days, but just in case, I want to convey my condolences on Peter's death. If you are the same Mike Freed, I remember bumping into you at Whole Foods in Sugar House a couple of times in later years and chatting, and you humbly disclosed the hardship of taking care of your father, as much as you loved him, of course. I have always admired you. Obviously, I did not know Peter, but in some remote and threadlike way, I feel your grief. And if I am off track with a family connection, I apologize, but condolences nonetheless.
