I am so very sorry to learn of Chuck’s passing. I attended grade school and primary with him as a young, sometimes unruly boy. I regret that I was not always kind to him. It’s been a desire in my life to find him so I could apologize and seek his forgiveness. He was a kind, genuinely good person whose rewards await him. My very best wishes to his family, Kim Christy

I knew Chuck from the days where we went to church at the Ensign ward. We went to primary together, as he was my same age. I remember that his memory was extraordinary. He memorized the 13 articles of faith faster than everyone else. I wanted to connect with Chuck over the years but did not know how to get a hold of him. I’m sorry that I did not try harder. The last time saw Chuck it was 30 years ago! I had the opportunity to introduce my children to him. I wanted my kids to know about this special person that I grew up with. Chuck is now together with his parents, and that is a great thing.
