

Richard Leonard Sidwell

August 10, 1936 ~ January 23, 2025

Richard was my favorite DVR workers. He reminded me of my Grandpa, not because of they shared the same name but, they had the same manorisms. He will be missed.

- Tracy Rexrode-Allan

What an incredible man! He treated me like a son. His children are his greatest achievement. His posterity, a great reward. His meekness, gentleness, and genuine love for all, his great legacy. May God bless and comfort the Sidwells, their spouses, children and beyond, and all those who mourn Richard's passing. It is a time to cry. May you find peace, hope and assurance, in coming days, until we meet at Jesus' feet. ■■■■■

It breaks my heart that Richard had Parkinsons. He was, indeed, a gentle giant who I loved working with at DVR. He had a way of looking for the good in people and, more than once, saved me from losing it over our seemingly rebellious oldest child. God Bless you and your family, my friend, and thank you for being a positive influence on those around you!
