I was so sad to hear about the passing of my Uncle Bill. He and my dad were very close and he was always around for as long as I could remember before my dad died. I always enjoyed playing with his and Stephanie's kids when we were little. His stories were always fun to listen to when I would see him at his print shop and later when we were all working together at the shop on State Street. Especially his Navy stories. Prayers and best wishes for the family. Love - Jake Watts
